

Support in Tender Opportunities

The Stepclever programme is designed to assist businesses in the wards of Anfield, Everton, County, Kirkdale, Linacre and Derby to successfully take advantage of tender opportunities. The project will deliver support for businesses including one-to-one support and assistance in writing a bid.

There will be a series of tender workshops covering:

- Sourcing & Identifying Bid & Tender Opportunities
- Expressions of Interest and Pre-Qualification Questionnaires (PQQs)
- Successful Tender Submission & Management
- Understanding Business Finance
- Marketing and Presentation Techniques

Businesses have access to the web portal www.stepuptosupply.com to ensure they have easy access to tender opportunities. There is functionality on the web portal to allow inter-trading with other local businesses.

Additional support is available through an online interactive programme which guides a business through the whole tender process, including how to write their policies (health and safety, equal opportunity, environmental and quality management systems).

Participating businesses will be Vendor Assessed to enable them to take part in Meet the Supplier Events (with Public Sector Buyers) and Meet the Buyer Events (with First Tier Private Sector Buyers).

To register for Stepclever call
